

ARA Boston Spring 2023 Online Atelier Classes

Resources:

Link: [STUDENTS ONLY page!](#)

If you are new to ARA Boston in General

[Your Supply list for bargue.](#)

You must watch the following videos on the **Students-Only** page **before** your first day of class.

- [Orientation Video](#)
- [Basic Supplies](#)
- [Pencil Sharpening](#)
- [Setting up your bargue drawing](#)
- [First Marks](#)

The Students Only Page is a HUGE TREASURE TROVE of information. Please take some time to see what information is on there which will be helpful at all stages of your training. You'll need a few level 1 Bargue drawings for "first marks." You can find a link to level 1 Barges on the students-only page. You can print these out on regular printer paper. They don't need to be nice photo prints like bargues 2-4.

PLEASE VIRTUALLY ATTEND THE FIRST DAY OF CLASS MONDAY 9:30-12:30 FOR ORIENTATION - Zoom Class - breakout room. If you absolutely can not attend orientation, please let us know. There is a previously recorded version that you can watch but we prefer you attend live to ask questions.

Veteran Students

Make sure you reach out:

- If you are switching to a new bargue at any time term, and want to come pick up a new print out.
- If you want to come pick up a mastercopy that we already have printed.
- If you need a digital file to order a print for a mastercopy
- If we have paper in stock and you need it for your assignment, we can arrange for you to come and grab a piece! We have roma, canson and arches in stock.

Formats of Classes

The class time will be similar to our in person experience. There will be critiques during the class. Other students can listen in and benefit from this. We expect you to be working during the class time. You will be able to discuss topics with the instructor both one-on-one and/or as a group depending who wants to participate. **We do expect you to be working during class time just like at school.** You will be able to submit images that the instructor can review both during class and also before the next class begins.

Bargue students will continue the work on their current bargues or begin a new one at home if needed. Or we can give you a digital file with info for ordering. Again, if you need a new one at any time throughout the term, we can arrange for you to come pick up a new bargue. In certain rare circumstances Julie may be able to

deliver it if you are unable to leave. Please reach out. Cast/Still life students will be discussing their at-home capabilities with the instructor the first day of class and determining an appropriate project to work on this term, or continuing from the previous term.

Submitting Images for Review/Critique via Google Drive

Each student has a folder within that link that you can upload your latest image before (preferred) or during the "class." ***If you do not see a folder with your name on it, you can create one or contact us to make one for you.*** The google drive link was included in your confirmation letter.

Links for Classes

The link for your current semester class was included in your class confirmation. Please check your email.

Taking Images of your projects

Ensure GOOD LIGHTING. Try to take the picture straight on to avoid distortion

Bad: Distortion, too dark

Good:
